Work History

DEVELOPER | ONGOZY TECHNOLOGY LTD.

2019 - Present

Startup specializing in agro-tech solutions.

Experienced content creator on YouTube & community leader.

Producing educational video content on YouTube, TikTok, Facebook

DEVELOPER | G.O.C - SALGAA

2020 - 2023

Designed and developed a Church Management System and Website. My System provided an interface for church members to view their tithes and offering contribution in church.

Inventory - Monitors all the church assets. Sorting out the lending and returning of assets.

Members - Keep records of all church members with their photo and contacts.
